North Texas Cat Rescue Opens Second Adoption Center Location in Allen

03/05/2009 from North Texas Cat Rescue

ALLEN, Texas - The grand opening of the new PetSmart in Allen, Texas will feature a permanent adoption center managed by the North Texas Cat Rescue (NCR). NTCR currently manages the adoption center inside the McKinney PetSmart . "We consider this expansion to a second location a great honor and opportunity to fulfill NTCR's mission," said Brigitte Barnard, NTCR President.

The first adoption event will take place on Saturday, March 7, from 1 p.m. to 4 p.m. on 170 E. Stacy Road. All cats are adoption-ready: having tested negative for FELV/FIV, spayed or neutered, vaccinated, wormed, and de-fleaed. They have also been socialized and litter-trained by their foster families.

Adoption fees help defray the cost of services rendered to the cats and subsidize the work of NTCR.

NTCR is currently on the lookout for new volunteers to assist with NTCR events.

Residents may sign up to foster cats in their homes, kittens season is about to start and NTCR is seeing an increase of pregnant females coming to local shelters. Foster parents are in dire need at this time.

Volunteers are needed to help maintain the adoption centers at both locations. The group also welcomes in-kind donations of supplies and an animal-zoned space for use in the preparation of cats and kittens for the foster system.

"We are in great need of a local climate-controlled facility that's animal-zoned for transitioning these little ones into their new lives with a loving family," said Barnard.

NTCR showcases their cats and kittens available for adoption on "The Whisker Gallery" <http://www.ntcr.petfinder.com> and their website www.northtexascatrescue.org.
